

## INNER QUEEN CHARLOTTE SOUND - WILDING PINE CONTROL PROGRAMME

As you may be aware, the Marlborough Sounds Restoration Trust has recently completed a three-year programme to control wilding pines in Queen Charlotte Sound. The tremendous success of this programme is evident to all visitors, residents and users of the Sound.

The Trust is now planning to undertake occasional follow-up control throughout the project area in order to prevent any re-establishment of wilding pines, and some additional control of new areas.

The Trust is inviting you to become part of that success story.

Funding contributions are being sought to allow us to continue to protect Queen Charlotte's scenic values and environment.

## How you can help

Rarely is there such an easy opportunity to make a physical difference to the landscape that you live and play in. By making a financial contribution to the Marlborough Sounds Restoration Trust's wilding pine control programme, you have the opportunity to improve our landscape for future generations.

We encourage you to nominate the management sector you would like to contribute to, or if you prefer to donate some funds to the general project then just tick the relevant box.

Upon payment, a letter and receipt will be sent to you acknowledging your support. You can also keep updated on progress of the programme through our website ([www.soundsrestoration.org.nz](http://www.soundsrestoration.org.nz)).

The Trust is a registered charitable entity, so any gifts of money it receives from individuals and certain companies qualify for tax advantages.
